Your score (out of 40)

Total

0-19 · Scattered

People see a different brand on each channel. Start with logo files and HEX codes: they fix the most visible problems first.

20-31 · Recognisable

The basics hold, but templates and a brand sheet are missing. Consistency depends on who made the post.

32-40 · Consistent

A real system. Keep it reviewed yearly and brief every new collaborator.

Fix the lowest area first. Consistency is judged by the weakest touchpoint: one off-brand flyer undoes ten good posts.
