How to use this calendar

- ☐ Mark the 6-8 dates that matter to *your* customers; ignore the rest.
- ☐ Prepare visuals **three weeks** before each date, print **four to six weeks** before.
- ☐ Build one reusable template per moment (Ramadan, Eid, summer, sales) instead of designing from scratch each year.
- ☐ Publish in the languages your customers read: Arabic, French, or both.
- ☐ During Ramadan, attention shifts to the hours before iftar and late evening: schedule posts accordingly.
- ☐ Keep every post on-brand: same colours, same type, same logo file. Seasonal does not mean off-brand.
